

creative soul by Traci Bautista

What brings you happiness..a smile to your face? What feeds your soul? What images do you relate to? What words describe YOU...colors that call to YOU. who are YOU? These are questions you will answer as you paint, collage and build a visual journal that expresses your creative soul.

Making Marks & Collage Canvas

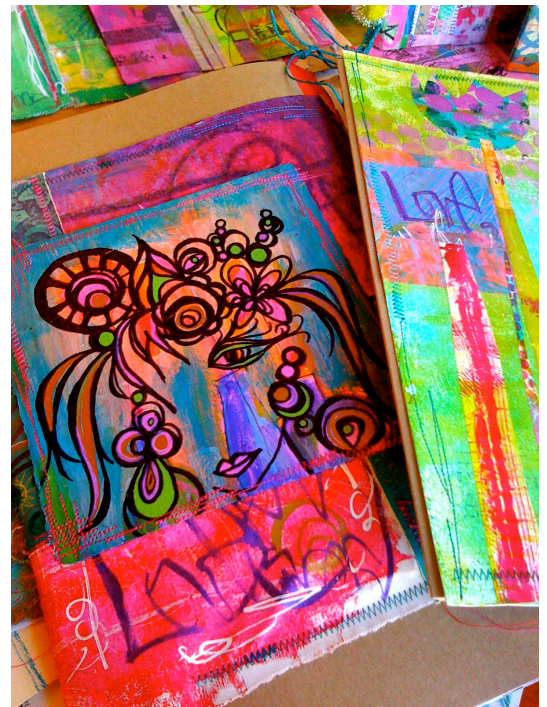

Explore a myriad of painting and mark making techniques on large canvas/paper surfaces. You will be lead through a series of jumpstarts to make creative textured canvas backgrounds, spilling words, writing thoughts . splashing...dripping paint, scribbling color & making marks.

PORTFOLIO: construction

The portfolio will be constructed from all the artwork pieces you have created. The portfolio panels are stitched or taped together with pages that flip and fold in a random fashion. The finished book opens up to reveal your creative soul through paintings, images and words.
